BIDDER QUESTIONS AND CLARIFICATIONS

QUESTION: Specifications section 00 73 19, page 1, paragraph 3 state to provide an SSHO who may be assigned no other duties. Specification section 01 45 01 Quality Control, page 1/2 of 11, paragraph 3.1 requires a Project Superintendent who must maintain a physical presence at the site at all times, and page 5 of 11, paragraph 3.4.2 requires a QC System Manager who shall be assigned no other duties. The specifications therefore appear to require 3 management personnel who will be supervising renovation of work in no more than 4 bathrooms at one time. Please confirm if this is absolutely necessary or if the duties of supervision, safety and quality could be combined for a more reasonable level of management and cost justification on a project of this size.

ANSWER: See revised specification set.
